

Title: ROW Project Manager
Location: Remote
Salary: \$150k - \$156k
Hours: Full-Time

JOB DESCRIPTION:

The Project Manager is responsible for facilitating the successful delivery of assigned projects from inception to close-out, on schedule, within budget, in accordance with the approved scope, meeting established quality requirements and objectives under the direction of the client..

Specific responsibilities include management, oversight, and support of: the project teams in the management and oversight of all elements of Real Property, including but not limited to acquisition, land conveyance, reporting, etc.

RESPONSIBILITIES AND REQUIREMENTS

- Plan, organize, coordinate, and manage delivery of right-of-way projects including but not limited to acquisition, land conveyance, reporting, etc.
- Development, continual improvement and implementation of: strategies, policies and procedures, systems and tools, to support right-of-way delivery for needed areas.
- Support Deputy Director of Real Property in special tasks, duties, and reporting.

KNOWLEDGE OF:

- Acquisition of right of way, land conveyances, and reporting required to deliver these aspects in a highly complex construction mega-project, commercial principles and their applications; research methods.

ABILITY TO:

- Understand all the interrelated aspects of real property in a design-build environment with multiple interrelated projects and functional areas. Prepare technical correspondence and complete, comprehensive reports; address an audience effectively; analyze situations accurately and adopt an effective course of action; and communicate effectively to demonstrate leadership, team-building, and collaboration skills, for meeting established project goals and objectives.

Title: ROW Project Manager

Location: Remote

Salary: \$150k - \$156k

Hours: Full-Time

DESIRABLE QUALIFICATIONS

- Minimum of ten years of project management experience with a focus on real property on complex mega-construction projects or projects of similar magnitude.
- Education Minimum: Bachelor's Degree in Civil Engineering, Construction Management or a closely related field
- Education Preferred: Graduate: Master of Business Administration or Juris Doctor
- Highly recommended: PMP and Lean 6 Sigma Experience
- Strong project and construction management background with focus on real property
- Proficiency and knowledge of computer software applications such as Microsoft Excel, Word, Visio, Project, and PowerPoint.
- Experience with major capital infrastructure projects and the areas of scope, policy, strategy and procedures on real property.
- Demonstrate a broad knowledge of budget processes, workload development, resource management, and project management concepts for innovative delivery projects, including design build.
- The ability to maintain good communication skills and working relationships with management, consultants, private sector contractors, subcontractors, and their associations.
- Strong coordination skills, given the strong matrix organization assembled for the program delivery team
- Excellent communication and negotiating skills (both written and oral), and the ability to speak knowledgeably with other consultants, stakeholders, other governmental agencies and individual citizens
- Ability to analyze situations and data accurately; lead the development of effective solutions and strategies for difficult technical and logistical problems related to delivery of right-of-way and land conveyances; and collaboratively engage the services of other parties necessary to achieve results.
